

IN THE DRAWINGS

Please cancel sheets 4 and 5, consisting of Figs. 4 and 5, of the formal patent drawings filed with the subject U.S. patent application. Please substitute therefor the enclosed Replacement Sheets 4 and 5, also consisting of Figs. 4 and 5. No new matter is being added by the submission of these Replacement Sheets of drawings.

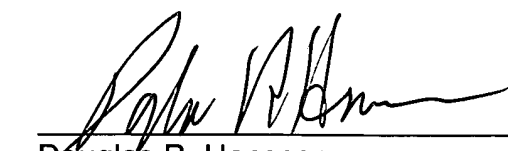

REMARKS

The specification of the subject U.S. patent application, as filed, as constituted by the German language text of WO 2005/007406, has been cancelled in favor of the concurrently filed Substitute Specification which is a revision of the also concurrently filed verified English language translation of the German language text of WO 2005/007406. During the preparation of the Substitute Specification, it was noted that reference numeral 327 in both Figs. 4 and 5 was incorrect and should be reference numeral 337. The two accompanying Replacement Sheets of drawings effect those changes. No new matter is being added by the presentation of the Substitute Specification and the two Replacement Sheets of drawings.

Claims 1-86 have been cancelled. Claims 1-43, as included in the verified English language translation of the German language text of WO 2005/007406 are also cancelled. New claims 87-133 are presented. New claims 87-133 are essentially the same, in scope, as claims 1-42 which are currently pending in the PCT application. These newly presented claims have been rewritten in a form more in accordance with U.S. practice and eliminating multiple dependencies. Their entry into the file of the subject U.S. patent application, prior to an examination of the application on the merits, is respectfully requested.
